PROJECT PROGRESS REPORT & COMPLETE SYSTEM GUIDE

Study Corner MNL — Offline POS & Financial Ledger

1943 Rd 5 Sta. Mesa / San Marcelino Ermita, Manila • Operating Hours: 8:00 AM – 9:00 PM

1. Project Progress Summary & Offline-First Upgrade

The **Study Corner POS & Ledger System** is built for **Desktop PC, Tablet, and Smartphone**, fully tested (12/12 automated test suites passing), and equipped with **Hybrid Offline-First Caching & Browser LocalStorage** so the shop can operate 100% offline without interruption.

Offline Caching & Browser LocalStorage (Completed)

- **PWA Service Worker (sw.js):** Caches the app shell, scripts, styles, official logo, and QR code images in browser CacheStorage for instant offline page loads.
- **Full LocalStorage Database (sc_pos_state_v1):** Stores active timers, visits, sales receipts, food menu, customer memberships, study plans, shifts, and settings locally in the browser.
- **Auto-Sync Outbox Queue (sc_pos_outbox_v1):** Queues any transaction recorded while offline and syncs automatically when the local SQLite Hub is reachable.
- **Client-Side CSV & JSON Backups:** Generate Sales CSV, Payments CSV, Expenses CSV, and full JSON backups directly from the browser even when offline.

Distilled UI across Desktop, Tablet & Phone + SQLite Hub

- **Clarity Over Density:** Clean light top header, flat session cards with tabular numerals, single-column check-in with inline member/plan autocomplete, and unified 4-column financial summary strip.
- **Built-In Multi-Device Preview Studio:** Launch /?preview=devices from **Settings → Sync & Backup** to view Phone (390×760), Tablet (768×740), and Desktop (1280×720) layouts side-by-side.
- **SQLite Database & Monthly CSV Ledgers:** Persistent local database (StudyCorner_Data/study_corner.sqlite) with automatic monthly CSV files and shift-close backups.
- **Real-Time Sync:** Live updates across PC, Tablet, and Phone via Server-Sent Events (/api/events) and browser storage events.

2. Official Study Corner Pricing, Plans & Menu

Hourly Study Rates (Ceiling-Hour Billing)

Hours Stayed	Non-Member	With Membership
1 – 2 Hours	₱80	**₱70**

3. Complete Tab-by-Tab Walkthrough (All 6 Application Tabs)

Tab 1: Time In — Customer Check-In & Active Plan Detection

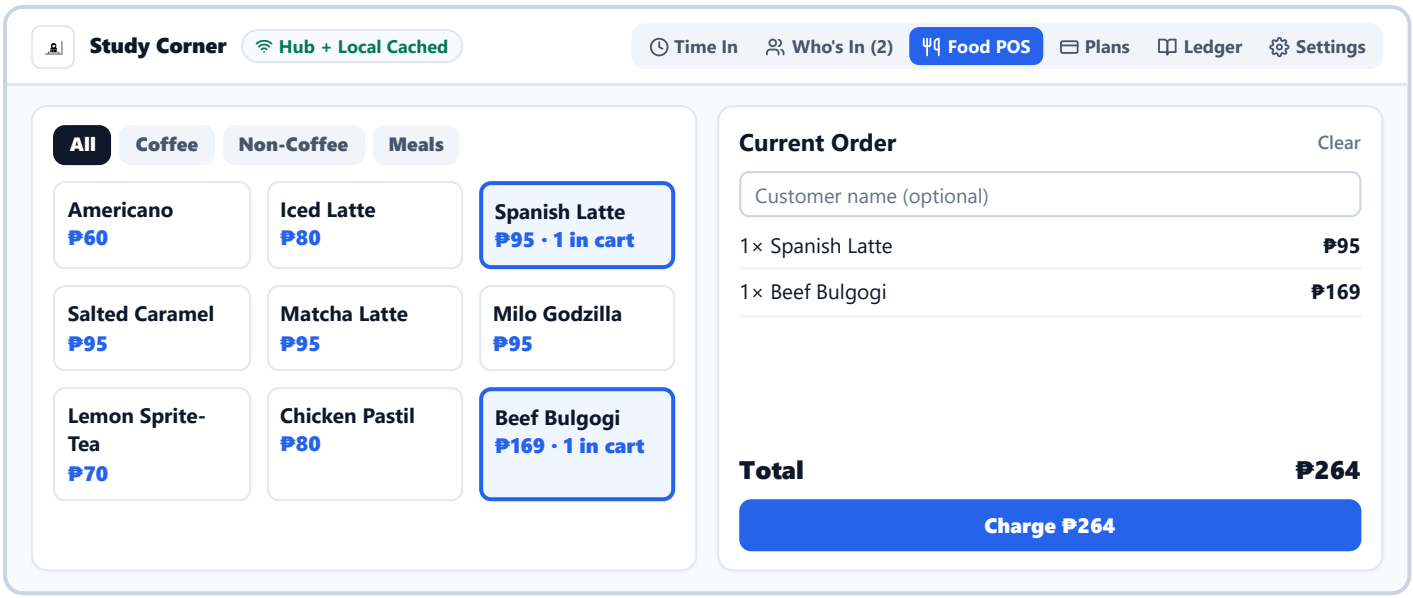

- **Instant Search & Auto-Fill:** Type a returning student's name or Member Card # to populate their membership status and detect active multi-day plans automatically.
- **Operating Hours Guardrail:** Alerts staff if checking in outside 8:00 AM – 9:00 PM with a one-click override option.

Tab 2: Who's In — Live Running Timers, Customer Food Tabs & Checkout

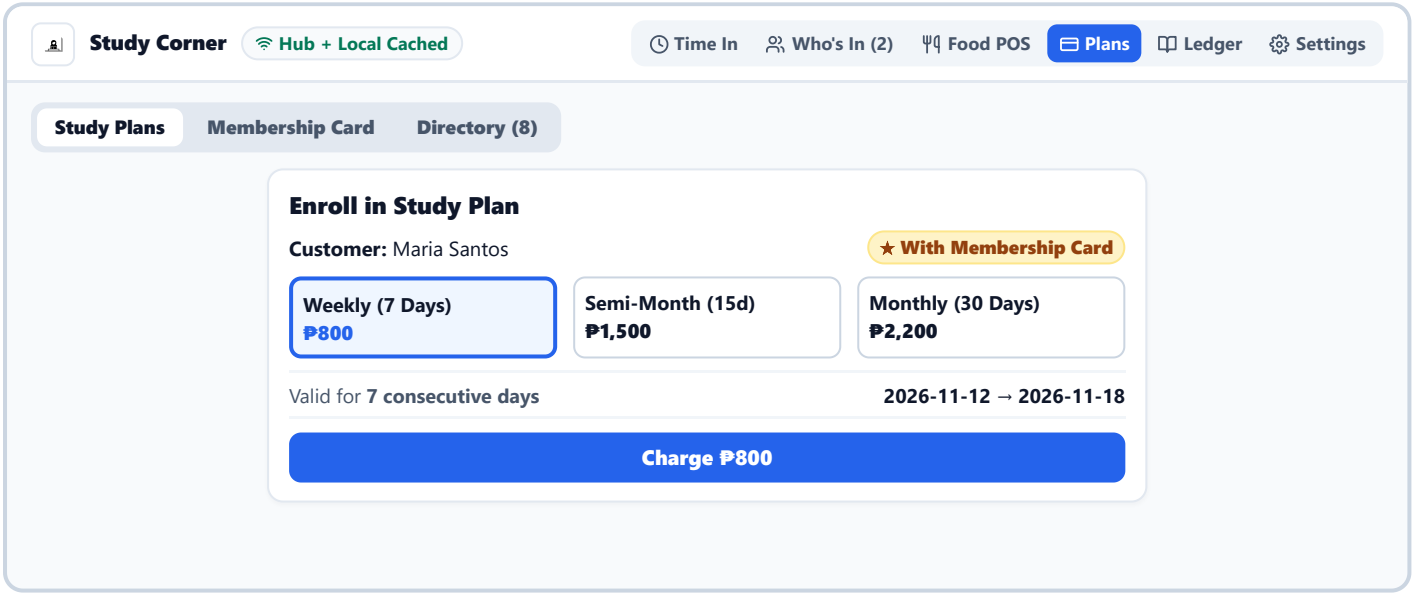

- **Live Elapsed Timer & Running Food Tab:** Staff can add iced coffee, non-coffee drinks, or rice meals to a student's active card and settle everything in one receipt upon Time Out.

Tab 3: Food POS — Standalone Counter Food & Drink Orders

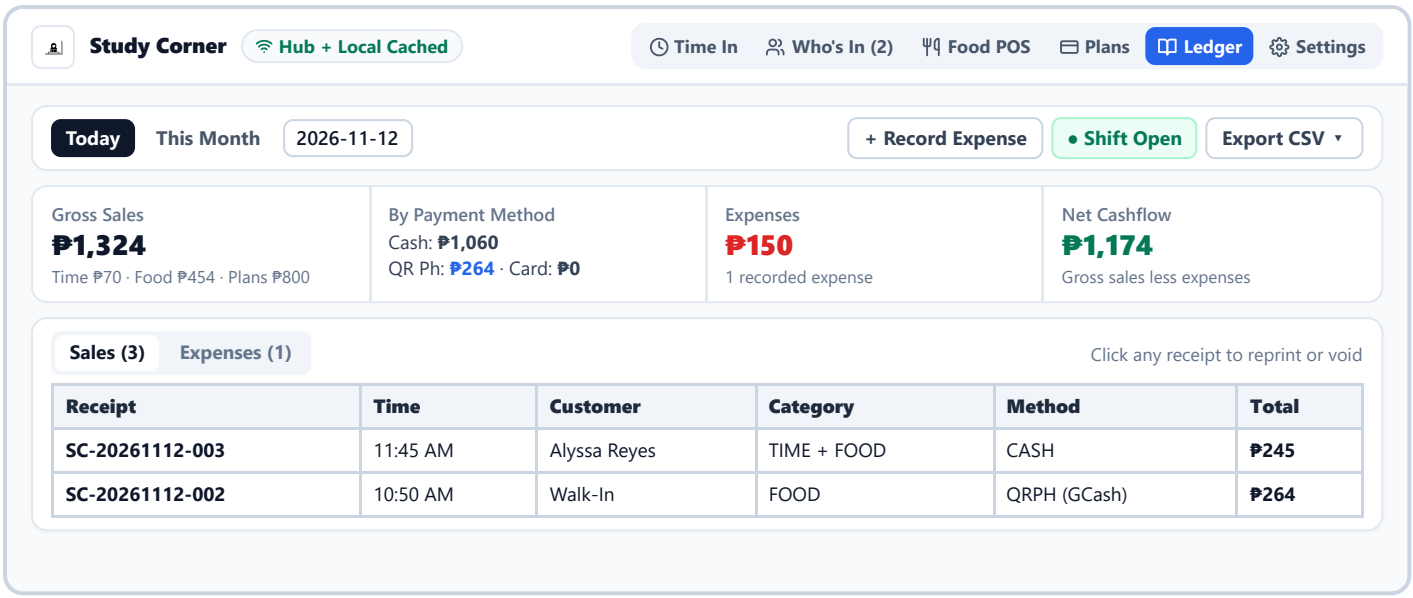

- **Fast Counter Ordering:** Designed for walk-in food/drink purchases or students who prefer to pay upfront at the counter when ordering coffee or meals.

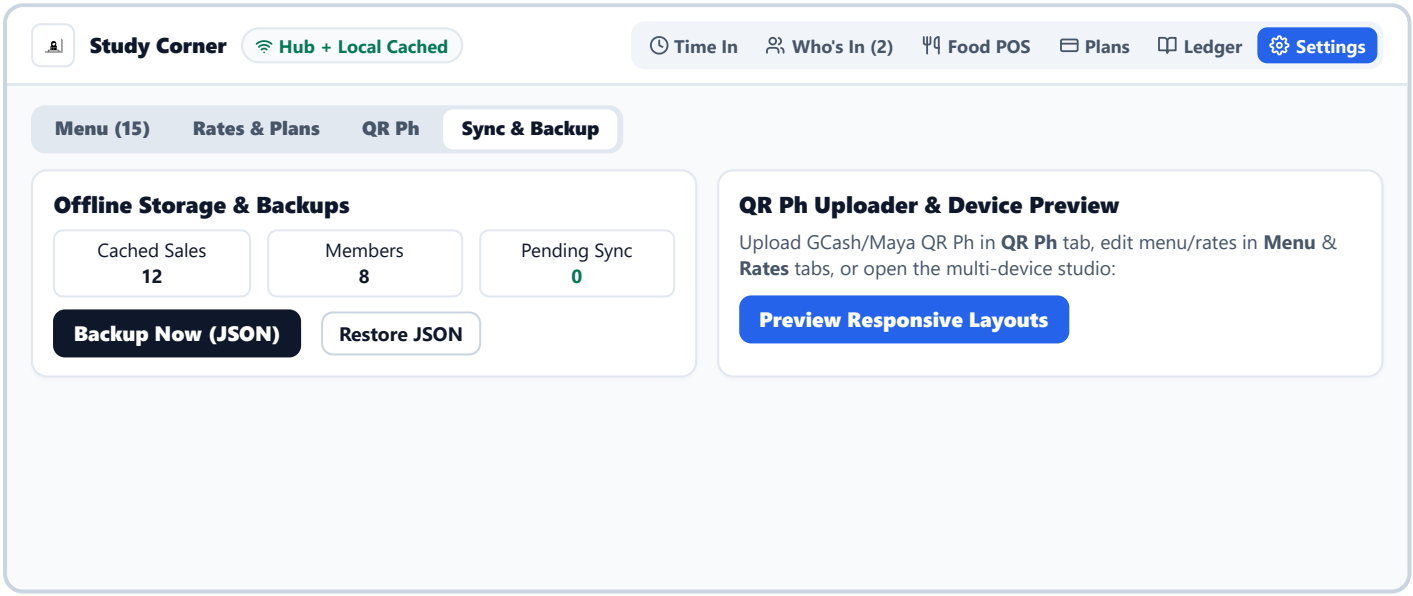

Tab 4: Plans & Memberships — Weekly / Semi-Month / Monthly & Lifetime Cards

Tab 5: Financial Ledger — Sales, Expenses, Cash Drawer Shifts & CSV Downloads

Tab 6: Settings — QR Ph Uploader, LocalStorage Backup & Rate/Menu Editor

- **Editable Pricing & Menu Manager:** All hourly tiers, multi-day study plans, membership fee, and food/drink menu items can be edited or toggled directly in Settings without touching code.

4. True-to-Scale Device Views: Smartphone, Tablet & Desktop PC

Below are the exact proportional device screens from the built-in **Multi-Device Preview Studio (/?preview=devices)**: Smartphone (390 × 760 portrait), Tablet (768 × 740), and Desktop PC (1280 × 720 widescreen) with full navigation icons.
